

Antimicrobial Sanitising Wipes

The Hygiene Revolution™

Byotrol is a hygiene revolution. Its patented formula combines biocides in a way that amplifies their effectiveness. **Byotrol Sanitising Wipes** are alcohol and fragrance-free impregnated surface wipes for use in the Food & Beverage and Healthcare industry. Alcohol-free means once pack is opened remaining wipes do not dry out. Suitable for many applications from counter tops, medical and processing equipment.

Description	Alcohol and fragrance-free surface wipes	Sizes	Ready to Use: 1000 wipes tub (20x20cm) 550 wipes tub (35x20cm) 150 wipes tub (20x20cm)
MSDS	B1936		

Tested	Successfully passed European Standards EN1276 against bacteria (TC 114), EN1650 against yeasts and moulds (TC 142) EN13697 surface test against bacteria (TC 124) and virucidal efficacy testing against Rotavirus (TC 155). Residual efficacy testing against bacteria (TC 137). SABS 1853 and NRCS accredited.
---------------	---

Powerful	Independently tested to be effective against microbes typically found on surfaces.
Long-lasting	Byotrol carries on being effective even when dry, lasting for many days on undisturbed surfaces and up to 24 hours on work surfaces. Most disinfectants stop working as soon as they have dried.
Gentle	Byotrol is water-based, non-corrosive and non-hazardous. Gentle on skin.

Application	Convenient to use, quick drying and no rinse. Can be used as a terminal sanitiser for cleaning-as-you-go between product runs or at break times. Can be used for a variety of applications, including tables, conveyors, and all types of equipment within the Food and Beverage industries. In Healthcare it can be used on patient contact areas and all types of equipment including monitors, blood-gas machines, syringe drivers etc.
